Excerpt: . . . FUNDAMENTAL CONSIDERATIONS 1. The Subject-Matter of Experimental Psychology. Anything that concerns our own dear Self is of intense interest to us. Among the things that concern each ones Self, the most fascinating are those which are not open to the gaze of all, and of which no one can have any immediate knowledge except him who experiences them. Such are the thoughts, feelings, fancies, memories, moods, aspirations, plans, wishes, resolutions, remorse, hopes, joys, sorrows, fears, likes and dislikes: in short, the whole drama which is enacted within the sanctum of each ones private Self. These internal experiences are the subject-matter of experimental psychology. They are the objects with which experimental psychology is directly concerned. Indirectly, however, anything that is capable of throwing light on these internal experiences--inasmuch as it is capable of doing so--comes within the scope of experimental psychology. Prominent among the things that...

Reviews

Completely essential read book. It is one of the most remarkable publication i have got study. Once you begin to read the book, it is extremely difficult to leave it before concluding.
