INTRODUCTION. None of the applications of the science of evolution to the art of breeding has been the subject of so much study, experiment, and discussion as the relative merits of inbreeding and cross-breeding. Nevertheless, opinions remain as discordant as ever, for some experiments appear to indicate that cross-breeding is better than inbreeding, while other experiments seem to show quite as definitely that inbreeding is better than crossing. Experiments are our means of securing answers to scientific questions. When experiments appear to give contradictory or...
