

Far Out: 101 Strange Tales from Science's Outer Edge

By Mark Pilkington

Disinformation Company. Paperback. Book Condition: new. BRAND NEW, Far Out: 101 Strange Tales from Science's Outer Edge, Mark Pilkington, Mark Pilkington's column "Far Out" appeared weekly in Life, "The Guardian's" science supplement, for about two years. It charted some of the more curious byways, scenic detours and inspired failures of scientists, inventors and, yes, crackpots, over the past few hundred years. Here is a collection of those columns, revised and expanded. Written in a succinct readable style, each piece provides a useful, self-contained introduction to its topic, and contains enough information to allow readers to discover more if they so desire. Covering physics, chemistry, biology, archaeology, parapsychology, psychology and other areas yet to be named, "Far Out" tells the stories that are all too often ignored, lost or simply forgotten by conventional science books.
