Reviews

This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, altered the way I believe.

THE KHOI LEOPARD (PAPERBACK)

AUTHORHOUSE, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.For most of her young life, the fickleness of fate had been cruel to this American woman. Hilary is an orphaned college graduate who leaves her few friends behind to seek employment in LA. After leaving her first job, she finds a job as a PA to a Hollywood couple. Hilary realizes, even though she had been on a few college dates, she really had become reclusive and very lonely. Her employers, Roger and Liz, recognizing her melancholy, invite her to accompany them on a holiday trip to Cape Town where Liz's parents live. After enjoying the sights and sounds around Cape Town, the tourists head out into the hauntingly beautiful Karoo where Hilary befriends a vacationing young man who has an interest in the area's Khoisan rock paintings. They spend much time together - sightseeing; exploring caves; kloofing in the mountain streams and socializing with fellow guests on the farm. They meet two secretive Chinese oil men who clearly wished to keep to themselves. During their excursions into the nearby hills and the Karoo veld, Hilary and her friend cross paths with two direct descendants of the Khoisan community that had inhabited the region for many centuries - long before the first Europeans set foot in Southern Africa. Will the American and her new friend be able to handle an ultra-long distance relationship after such a brief holiday romance? Will the dangerous Kowloon based mobsters of the BPC succeed in ending their young lives in order to steal the Khoisan's ancestral land? Remember, wherever you find oil fields, greedy predators were always watching and calculating risk versus reward.
