Another measure which is desirable is one modeled after the methods employed in Kentucky where a great many trachoma cases have been found. In Kentucky, trachoma hospitals have been established. In Manila we wish to establish a trachoma school, which the trachomatous children should attend for one year and which should have a properly equipped dispensary with attending physician and nurses. In order to safeguard the health of teachers and pupils it is recommended that all school teachers should be a valuable aid in the efforts to make the schools the center of instruction in hygiene. There are many improvements desirable in the school buildings now in use but realizing that at the present only such recommendations are desired as can be carried out with little or no expenditure, the following suggestions are made. In Intramuros Primary School, Calle Beaterio, rooms now numbered 12 and 13 are probably the most unsatisfactory in that school on account of lack of light, ventilation, and air space per pupil. The vacant room to the right on entering has larger windows, more height from floor to ceiling and has openings both exteriorly and toward the courtyard giving through ventilation and it is therefore more desirable than the classrooms now numbered 12 and 13. In the Zurbaran School, the use of the space beneath...
